Nialide , In the early part of season it is a decorative. Later a beautiful pæony type. We are often asked why such a beautiful flower is not more popular. Making it very attractive. The flowers are borne on exceptionally long stems and require very little disubbing. A wonderful keeper and always admired. Flower large	1.25	12.00

Gold Medal. "Kind's Gold Medal." Of all the show Dahlias we have; here is a Dahlia all by itself. The reader may recall the older variety of Gold Medal. A yellow base with markings of bronze. Ten years back we found a sport from this particular sort which proved to retain its character . The color is of a most pleasing coppery bronze. Many of these flowers are shipped to the New York and Phila. markets. A color always wanted by the decorator. Consult your wholesaler as to his opinion on this particular Dahlia. Through a misunderstanding this Dahlia was given other names as "Gold Medal De Luxe", etc. Here are the three strong points why you should have this Dahlia in your collection:—A most desirable color, Long sturdy stems, Always in demand

WHY THEY WERE SUCCESSFUL

Because they were cheerful when it was difficult to be cheerful, and patient when it was difficult to be patient; and they pushed on when they wanted to stand still, and kept silent when they wanted to talk, and be agreeable when they wanted to be disagreeable. That was all.

Lilliums

We have one of the finest strains of the famous white Lily Candidum. Grown in our soil for the past five years. Well acclimated. This lily is surely one of the best July flowers and can be used for so many purposes at this season. The flower is very much the same as the famous "Easter Lily."
